

Double Cab, car with seats on the second row

The Medium Van with two rows of seats can be equipped with a separation wall behind the seats.

This wall will have matching colors with the original pannels.

When the car, to be transformed, is equipped with three seat-rows, we can put a floor in the back in order to cover the seat fixation points.

If weights and dimensions are correct, the car can be homologated N1 (light truck), with the accompanying taxation advantage.

Specifications:

- Wall specially made for the concerning vehicle-type.
- Assorted colours
- Straight wall (no storage possibility from the rear side under the seats).

Options:

- 35% or 95% film for windows
- Side protection panels.
- Leather upholstery of the seats
- Multiplex or PE sandwich anti-slip floor
- Extra speakers in the separation wall
- Displacement of parking- aid indicators
