

Midibus

The ACT solution for a passenger transport bus based on a large Van with or without a sliding door has the following characteristics:

- Aluminum floor with 4 or 5 rails, covered with light grey vinyl, type <surestep>.
- Special Midibus seats, upholstered with assorted materials and fitted with three-point safety roller-belts; There will also be an armrest at the side of the aisle.
- An emergency exit button on each side with a warning panel for the driver.
- The entrance step will be foreseen with an illumination system.

Options:

- Emergency exit installed in the ceiling.
- Supplementary air-conditioning and/or heating system.
- Separate luggage storage
